PROFESSIONAL SUMMARY

Senior React & React Native Developer with 3 years of experience building scalable, high-performance web and mobile applications. Strong expertise in React.js, React Native, TypeScript, Redux, and Firebase, with hands-on experience in REST API integration, real-time features, and production deployments on App Store and Google Play. Proven ability to lead and mentor junior developers, deliver end-to-end solutions, and write clean, reusable, and optimized code across multiple business domains

WORK EXPERIENCE & INTERNSHIPS

- **Tristate Technology LLP (React / React Native Developer)** *(23 Jan 2023 – 30 Mar 2025)*
 - Led development of mobile and web applications using **React Native, React.js, TypeScript, and Redux**.
 - Implemented core features including **chat & group chat, social login, in-app subscriptions (IAP), push notifications, and deep linking**.
 - Integrated **Firebase** for database and notifications and **SQLite** for local data storage.
 - Handled complete **app deployment lifecycle**: certificates, TestFlight, App Store, and Google Play (internal & external testing).
 - Mentored **2 junior developers**, conducted code reviews, and improved code quality and delivery speed.
 - Collaborated with cross-functional teams to ensure stable, user-friendly, and high-performance applications.
- **Qpax Solutions Pvt. Ltd. (Senior React / React Native Developer)** *(Apr 2025 – Present)*
 - Working as a **Senior React Developer**, handling multiple projects across different domains using **React.js and React Native**
 - Led and trained junior developers, providing technical guidance, best practices, and onboarding support.
 - Took ownership of end-to-end project delivery including requirement analysis, development, integration, and release support.
 - Built reusable components and shared utilities to improve development efficiency and maintain consistency.
 - Worked closely with backend teams to integrate REST APIs and optimize application performance.
 - Improved UI performance using optimized state management and modern React patterns.

PROJECTS

HRMS Web Development: Designed and developed an HRMS application to manage employee onboarding, attendance, leave management, payroll workflows, and role-based access control. Integrated REST APIs for data operations, implemented real-time updates using Firebase, and optimized performance for scalable enterprise use

Travel Bee App Development: Designed and developed an app enabling users to create trips, invite friends, and select destinations using Google Places API. Integrated Firebase for database management, real-time synchronization, and analytics handling for enhanced functionality

Loggy App Development: Implemented offline data handling by enabling request queuing for car log additions, ensuring seamless synchronization with the server upon internet restoration. Designed and integrated a dynamic theme system, supporting both dark and light modes for enhanced user experience

School Management System Development: Designed and developed a school management web application to handle student enrollment, attendance tracking, class and timetable management, exams, and fee management. Integrated role-based access for admins, teachers, students, and parents, with real-time updates and secure API integration

SUSIE App Development : Developed a wellness application to help users overcome drinking habits, featuring daily motivational quotes, nearby AA meeting locators, note-taking, informative content (audio, video, text), custom meditation reminders, and a recommender system with sentiment analysis.

Trggr & Trakmeet Dating Apps : Managed key features for both apps, including user profiles, matching algorithms, chat functionality, and interactive features to enhance user engagement and experience.

TECHNICAL SKILLS

- **Programming Languages and Frameworks:** JavaScript, TypeScript, React.js, React Native, Node.js, Nest.JS, express.js , ,Python, Java
- **Tools and Technologies:** Redux, Firebase, Git, GitHub, Xcode, Android Studio, Postman
- **Database Management:** SQL Server, SQL Server Management Studio (SSMS)
- **Additional Skills:** Data Structures and Algorithms (DSA), Strong Problem-Solving Skills, RESTful API Development,

SCHOLASTIC ACHIEVEMENT

- JEE Mains cleared with 90 percentile in 2019
